Soviets Try New Tricks In Air Lane

Fighter Planes Train On Berlin Blockade Route

BY RICHARD KASISCHKE
Berlin, July 16. (AP)—The Russians warned the Americans and British today that Soviet fighter planes will be training in air corridors down which the western Allies are bringing supplies to blockaded Berlin.

The planes will operate from Russian airfields at Koethen, Dalgow and Brandenburg west and southwest of Berlin from seven a. m. to seven p. m. U. S. operations officers said they were advised.

The Russians have been posting such notices more regularly as the American and British Air Forces stepped up their air lift.

Both American and British officers described the increasing Russian air activity in the corridors as "apparent harassing tactics intended to make things awkward for us."

They emphasized that the Russian action was not affecting the operation of the air lift.

The American military government has told Berliners they have a right to demand the lifting of Russia's "brutal starvation blockade" and promised them more aid through the Allied air bridge.

An ABC broadcast last night said: "The civilized world has demonstrated its complete solidarity" against the blockade.

The broadcast likened the Russian move to the actions of Adolf Hitler's Nazi government. It told Berliners that new techniques and the expansion of landing fields might permit B-29s to join the Allied air lift.

More Bombers Join Berlin Food Fleet

Almost 100 Superforts Operate In Germany

Washington, July 16. (AP)—The A-1 Force announced today that 69 B-29s are enroute to England for a "shoot" training visit there.

The big bombers, comprising two groups, will make the trip over two routes, one by way of Labrador and the other via Bermuda.

In England, USAF officials said, the American formations will be guests of the Royal Air Force, using three RAF bases while there.

While there was no announcement for the Air Force, it was considered probable that some of the B-29s will make training flights out of England to United States bases in Germany.

The Superfortresses are crossing the Atlantic in the wake of the American cargo plane fleet recently sent into Germany to fly food into Soviet-blockaded Berlin.

The training trip great augments U. S. air strength in Europe at a time when Russia is threatened to slam shut the air corridors into the beleaguered capital.

DISPUTE AT HOSPITALS

Detroit, (AP)—AFL employees of Harper and Women's hospitals here voted Thursday to strike in enforcement of a contract demands. However, officials of the Hotel and Restaurant Alliance Union said they would meet with the hospital managers again before any action is taken.

Big Funeral Parade To Honor Pershing

Body To Lie In State At Capitol Sunday

Washington, July 16. (AP)—A vast military funeral procession is planned for General of the Armies John J. Pershing.

Tentative plans call for an escort of thousands of infantry and armored cavalry troops, Navy Blue-jackets, Marines and Air Force personnel. In addition, there is to be a farewell salute by Air Force planes over the grave of the 87-year-old war hero, who died early yesterday at Walter Reed hospital after 10 years of steadily failing health.

President Truman and cabinet are expected to attend the graveside ceremonies on Monday in Arlington National Cemetery. With them will be the generals and admirals who compose the nation's military high command.

The almost unprecedented military tribute—possibly the greatest since burial of the Unknown Soldier—will start Sunday morning.

Army troops will escort the general's body from Walter Reed hospital, in Northwest Washington, to the capitol. Until Monday morning he will lie in state in the high vaulted rotunda of the grey old building, resting on a historic catafalque which previously had borne the remains of Abraham Lincoln and the Unknown Soldier.

Six British Jets Cross Atlantic To Land at Montreal

Montreal, July 16. (AP)—Montreal airport traffic control reported today that six R. A. F. Vampires, first jet aircraft to cross the Atlantic, arrived at Mont Joli airport this morning.

Mont Joli is 350 miles down the St. Lawrence river from here.

The planes, which will make a tour of Canada and the United States, left Goose Bay airport, Labrador, at 7:09 a. m. (EST.) They arrived at Mont Joli about 9:30 a. m.

The planes will refuel at Mont Joli before flying to nearby Dorval airport where they are expected to arrive this afternoon.

The jets left their base in England, July 1. They were held up by weather at Sornoway in the Hebrides before they were able to make the hops from Iceland, and Greenland and across the northern seas to Goose Bay.

Steak Price Hits \$1.19 In Detroit

Detroit, July 16. (AP)—Steak prices have climbed to \$1.19 a pound here—and they're still going up.

In the last week, reported president Alex Bell of the Associated Food Merchants of Greater Detroit, the cost of wholesale beef has risen five or six cents a pound, bringing porterhouse and other better cuts well out of the range of a majority of housewives.

Until August, when the marketing of grass-fed cattle may mean some price drop, the meat situation in this area will be "rough," Bell conceded.

Dixie Democrats Lay Out Campaign To Defeat Truman

BY REX THOMAS

Birmingham, Ala., July 16. (AP)—Angry southern Democrats went ahead today with plans to put their own ticket in the November elections, but one of their leaders said frankly they have no chance of winning.

Others, however, were not so pessimistic. They counted on a solid southern bloc of 127 electoral votes behind a Dixie candidate for president.

A conference of "States' Rights" Democrats meets here tomorrow to nominate candidates for president and vice president in opposition to the Truman-Barkley ticket.

The Philadelphia convention was "dominated by the big city machines who have taken temporary control of the party," said the Jackson, Miss., attorney who is vice chairman of the recently formed States' Rights committee.

But, he added, "the November elections will take that control away from the big city machines." Asked if that was meant to be a forecast of defeat for Truman, the Mississippi-replied "yes."

Wright, who arrived here by plane late yesterday direct from Philadelphia, is expected to preside at the opening of tomorrow's meeting. Gov. Ben Laney of Arkansas is permanent chairman of the States' Rights movement.

Other states' rightsers still held out hope of mustering enough electoral votes to throw the election into the House of Representatives by keeping both Truman and Republican nominee Thomas E. Dewey from getting a majority.

That happened once before, in the Hayes-Tilden campaign of 1876. Hayes was elected.

The official end of the walkout at noon (5 a. m. EST) came amid scenes of wild tumult in the chamber of deputies where Christian Democrats and Communists engaged in fist fights. Strike-bred disorders had swept the country for 36 hours.

At least 13 persons were killed and more than 100 injured in the Communist-sparked rioting. Even before the hour set by the Communist-led General Confederation of Labor (CGL) for the end of the walkout, the strike virtually had collapsed.

A back-to-work movement began late yesterday. The CGL knuckled under when de Gasperi's government stood firm against this most serious challenge yet to its authority.

The new law limits the annual total of these enlistments to: Army 110,000; Navy 36,000, including 6,000 Marines; Air Force 15,000. For the first four weeks after July 21, the Army will accept 10,000 men; Navy-Marines 3,000; Air Force 1,300.

The Detroit meeting will review the choice, Fitzgerald said. Then the matter will be laid before a state central committee session in Lansing July 24.

Bunk On Railroad Tracks Costs \$8.90 For Marquette Man

Marquette, Mich., July 16. (AP)—Yalmer Maki's preference for railroad tracks as a bed cost him \$8.90 yesterday.

Twice within an hour engineer Edmond McCann halted his switching engine when he found Maki stretched across the track. The first time he merely awakened him and told him to leave. The second time he called police.

Officers first provided Maki with a cell to sleep in, then took him into court where he was fined on drunkenness charges.

Marquette (AP)—A recent survey revealed there are 75,775 Catholics in the Upper Peninsula, an increase of 1,176 since 1947. The ratio is about one Catholic to every three residents of other faiths.

Union Clash Closes South Haven Plant

State Police Watch Over Half-Dozen Pickets

South Haven, Mich., July 16. (AP)—The National Motor Castings Co., scene of picket line disorders Thursday, was closed today as negotiators sought a peace conference in the month-old strike.

Only half a dozen CIO pickets were on duty, marching under the eyes of state police who were sent to South Haven Thursday by Governor Sigler.

The walkout began here June 15 over what the union called "wages and other grievances." It affected about 250 employees.

The plant reopened Wednesday for the first time since the strike began. Company officials said about 150 workers returned to their jobs. When the back to work movement continued Thursday, a mass picket line of about 100 unionists clashed with returned employees at the plant gates.

No one was injured but South Haven's six-man police force reported the situation out of hand. Sigler was asked to send in state police.

Girl Breaks Window To Join Escort In Jail At Ann Arbor

Ann Arbor, Mich., July 16. (AP)—Maxine Smith, 19-year-old beauty operator, today refused to let a police charge stand between her and her 40-year-old companion, David Eaglen.

The pair was stopped early this morning and Eaglen was lodged in the county jail on a driving-after-drinking charge. But police refused to allow the young lady to accompany him.

Determined, the woman marched outside the building picked up a rock and hurled it through one of the jail windows. Police agreed she had hurled the objection of lack of charge and made room for her.

Meat Prices Break Record In New York

New York, July 16. (AP)—Retail meat prices in New York have hit a record high, says the department of markets.

The department reported yesterday that the prices of popular cuts of meat—including sirloin steak at \$1.10 a pound and lamb chops at \$1.20—are an average of 24 per cent higher than a year ago.

Three Days Granted To Still Guns

Cease-Fire In Jerusalem Effective Tonight

BY LARRY HAUCK
Lake Success, July 16. (AP)—The Security Council last night ordered the war in Palestine stopped. It was the strongest decision in United Nations history.

The 11-nation council gave the Jews and Arabs three days to cease firing and committed itself to back up the decision with force. The delegates also ordered an unconditional cease-fire in Jerusalem, effective by tonight. The Holy City is to be demilitarized.

No Soviet Veto

The final vote came on an American resolution after three days of debate. The ballot was 7 to 1 with only Syria in opposition. Russia, the Soviet Ukraine and Argentina abstained. The seven affirmative voters—just enough to approve the plan—were United States, Britain and France.

It marked a British break with the Arab world but during the closing hours of debate Sir Alexander Cadogan sought to soften the blow by explaining carefully that his government was not endorsing any suggestion that the Arabs are the aggressors. Rather, he said, Britain insists that a truce go on to enable Count Folke Bernadotte to continue Arab-Jewish negotiations.

Israel is expected to comply with the order. Arab delegates have told the council they could see no chance of the Arab countries accepting.

Under the council order failure of either side to comply within three days automatically "demonstrates" a breach of world peace. The council then is committed to immediately consider invoking its most potent weapons under the U. N. charter—diplomatic sanctions, economic sanctions and international land, sea and air forces.

Nationwide Walkout Called Off In Italy

Communists Back Down As Premier Gets Tough

By FRANK BRUTTO and PHILIP LARKE
Rome, July 16. (AP)—Fresh disorders erupted in Italy today as a Communist-led general strike sputtered to a halt.

The Communists called off the strike after Premier Alcide de Gasperi's government said it would use force to break the "insurrection."

The official end of the walkout at noon (5 a. m. EST) came amid scenes of wild tumult in the chamber of deputies where Christian Democrats and Communists engaged in fist fights. Strike-bred disorders had swept the country for 36 hours.

At least 13 persons were killed and more than 100 injured in the Communist-sparked rioting. Even before the hour set by the Communist-led General Confederation of Labor (CGL) for the end of the walkout, the strike virtually had collapsed.

Black Continues His Heckling Of Sigler, Summons Legal Aide

Lansing, July 16. (AP)—Governor Sigler today fought off Attorney General Eugene F. Black's attempt to take away his legal advisor, seeking to offset Black's latest jab at the governor.

Yesterday, Black in the latest move in his feud with Sigler instructed H. H. (Pete) Warner, the governor's special legal advisor, to report to the attorney general's office for temporary duty lasting from 60 to 90 days in connection with an unspecified special investigation.

Sigler wrote Black this morning, "I deem it very inadvisable for me to comply with this request."

Staff Small

"You are mindful," Sigler continued, "to the fact that the chief executive has a very small staff with many problems and many demands made upon him. For all of these reasons I must respectfully request that Mr. Warner remain assigned to this office."

Sigler said that for some months

G.O.P. Leaders Set For Scrap On Turnip Day

Washington, July 16. (AP)—Republicans whetted their legislative knives today to chop down any political crops which may sprout from President Truman's "turnip day" recall of the 80th Congress.

Vigorously they assailed Mr. Truman's summons to return July 26 as "cheap politics" but they also dropped broad hints that if there is any vote harvest to be gathered in the special session it will not be a one-party reaping.

Looking For Ammunition

One member of the House Republican steering committee, who refused to allow use of his name, suggested that GOP lawmakers may open some investigations of the Democratic administration.

Just what might be investigated he did not say. But he told reporters one or two good investigations

could provide a lot of campaign ammunition for the Republican party.

Mr. Truman issued his summons yesterday for the return of what he has called about the "worst Congress" in history. Acting just 12 hours after winning the Democratic nomination in a north-south split election, the president said "an extraordinary occasion requires" the special session.

He told the convention he wants Congress to act on nine major problems: Inflation, housing, education, health, civil rights, minimum wage boosts, social security, public power and displaced persons.

In Missouri, the president said, July 26 is "turnip day"—the best day to sow seed for a good harvest. But it was clear that in calling back Republican lawmakers on that date to make good on their platform promises it was a Democratic vote harvest Mr. Truman had in mind.

Vacations Spoiled

Gov. Thomas E. Dewey was silent on the special session call. Next week the Republican standard bearer plans to open campaign headquarters in Washington, where he can take a direct hand in guiding his party's political fortunes—on Capitol Hill, among other places.

From all sections of the country GOP Senate and House members sounded a mounting chorus of opposition to the special session. To some, resuming the lawmaking chores which they considered finished June 20 will mean simply a halt to their vacations. But to more it will mean a halt in campaigns for November reelection.

No one was ready to predict how long the special session might last. It could go on for several months. The president said the program wants could be put through in 15 days if the legislators cooperated.

Fiery Crash Fatal To 9 At Salina, Kas.

Three Bail Out Of B-29 At 1,200 Feet

Salina, Kas., July 16. (AP)—The Smoky Hill air base today announced the names of nine crew members killed in the flaming crash of a B-29 bomber.

The plane, returning from a training flight, crashed as it was preparing to land yesterday at the base here. One crewman was injured in the crash. Three others escaped by bailing out at an altitude of 1,200 feet.

The dead were listed as: Capt. Roger R. Reeter, Salina, pilot.

Capt. Giles C. Wagner, Selkirk, N. Y., co-pilot.

Capt. Donald O. Coffey, Kansas City, Mo.

Capt. R. K. Spangenberg, Birmingham, Mich.

1st Lt. Robert B. Pring, St. Louis.

2nd Lt. Oliver D. Holmquist, Tacoma, Wash.

2nd Lt. Milo J. Miljush, Moline, Ill.

T/Sgt. Homer F. Jones, Whitehaven, Pa.

S/Sgt. Arthur P. Taylor, Salina.

Injured was Pfc. L. D. Johnson. His home town was not given.

Earlier the base identified the three who bailed out safely as 2nd Lt. Lyle B. Bordeaux, S/Sgt. Earl W. Reuter, and 1st Lt. Donald R. Zellmer. Zellmer suffered a back injury in landing.

George S. Fitzgerald, new national committee chairman who replaced Cy Bevan in a stormy caucus in Philadelphia last weekend, returned today from the Democratic convention and announced the meeting.

Its main purpose, he said, will be to establish peace in the state organization and begin an all-out campaign to elect a Democratic congressional delegation.

Delegates at the session also will make a final decision on the time and place for the state nominating convention.

Some time ago State Chairman John R. Frank announced it would be held Sept. 25 at Flint, but some of his opponents contended he set it without consulting the central committee as required by law.

The Detroit meeting will review the choice, Fitzgerald said. Then the matter will be laid before a state central committee session in Lansing July 24.

COUNCIL HEARS AIRPORT PLANS

Considers Insurance On Dock Property

The city council, at its meeting Thursday night, discussed plans for the Escanaba airport and the contract bid submitted by the low bidder, C. G. Bridges of Escanaba. The council gave its approval to the contract, governed by the state aeronautics board.

Insurance on the ore dock property was considered by the council, which ordered the city manager to carry \$100,000 public liability on the property, in accordance with federal government regulations under the War Assets administration, and instructed him to delete the \$50,000 property damage insurance previously carried.

The property damage insurance, at a cost of nearly \$80 per year, has been deleted because there are relatively no buildings on the land.

A bid by James D. Prval for lot 16 of block 16 in the Stephenson addition, of \$350, was accepted by the council. Prval was the only bidder for the adjoining lots, 15 and 16, in the addition.

The council heard objections to ordinance No. 186, vacating 325 feet on 18th avenue south for airport purposes. They then passed the ordinance by unanimous vote.

Ordinance No. 184 was reconsidered at the behest of the city planning commission. The first reading of this ordinance was cancelled.

The ordinance will be rewritten, substituting the word "fire resistant" for "fire proof" in the regulations governing commercial building in the city. The planning commission felt the term "fire proof" to be too stringent for local building.

The council also heard objections to the maintenance of the ball diamond in Royce Park. A petition was presented to the council, with three endorsements. None of the three signers was present. A large number of young boys presented their objection to the discontinuance of the ball diamond. No action was taken on the matter.

New Cars Promised To Tucker Dealers

Firm Sued For \$100,000 For False Arrest

Chicago, July 16 (P)—A \$100,000 false arrest suit was filed in federal court yesterday against the Tucker Corp. and Preston Tucker, the automobile manufacturing firm's president.

Julian C. Ryer of Chicago, one of the attorneys representing three New York men in a receivership suit against the corporation, said in his suit he was "forcible and illegally" detained at the Tucker plant Wednesday for 30 minutes.

The suit said Ryer had gone to the plant with a deputy U. S. marshal to serve Tucker with a summons in the receivership action. Ryer said Tucker, after he was served the summons, flashed a deputy sheriff's badge and told him he was under arrest.

Tucker said in a statement Ryer had misrepresented himself as a Tucker dealer to gain entrance to a closed meeting of dealers at the plant. Tucker said he challenged Ryer at the meeting and then had a plant guard escort him from the building.

Meanwhile, Tucker promised the radically new Tucker cars to his 78 distributors within 30 days. He said after the cars reach the distributors the 1,774 Tucker dealers will begin receiving them "as rapidly as possible."

New Lights Aid Plane Landings

Washington—Two commercial airports of the United States, one here and the other in Los Angeles, are to be equipped with recently developed and tested high-intensity approach lights, the Civil Aeronautics Administration revealed today. They are lights that penetrate fog for considerable distances and permit pilots making instrument landings to make the last part of their approach visually.

The powerful lights include a new type of optical system consisting of ground and polished glass and molded red plastic lenses. Each light is equipped with a five-kilowatt incandescent lamp. The system comprises a row of lights 3,000 feet long, spaced 100 feet apart, which extends out from the approach end of the instrument runway. The intensity of the lights can be regulated from the control tower. Each of the two installations, for which contracts have been now signed, will cost about \$100,000.

City Alleys Will Be Sprayed With DDT

Alleys in Escanaba will be sprayed with a mixture of DDT beginning early next week, to combat mosquitoes and other insect pests.

The city council, in regular meeting last night, authorized the city manager and city engineer to proceed with the project.

Robert Clayton submitted plans to the city manager previously and he will be hired to do the work. Spray nozzles will be mounted on a tractor and all bushes, shrubs and near-by garbage pails will be sprayed.

The mixture is considered safe—it will kill only insects. The DDT will remain effective from two to four weeks, the city engineer, Loren Jenkins stated.

The cost will be in the close vicinity of \$200.

Jewish Fliers Make First Cairo Attack

Arabs Reported Fleeing From Holy City

By MAX BOYD

Cairo, July 16 (P)—The Israeli high command announced in Tel Aviv its planes attacked Egypt for the second time and dropped seven tons of bombs today on Tell El 'Arish airfield near the Palestine border.

At the same time, it announced a new Egyptian air attack on the Tel Aviv area today. The Jews struck from the air at Cairo last night in the first attack on the Egyptians' capital of the Palestine war.

The attack followed an Egyptian air raid on Tel Aviv.

Moslem brotherhood demonstrators menaced Jewish shops in Cairo in an angry protest today against the attack on the capital. A crowd of 1,000 gathered in front of the Al-Azhar Mosque and attempted to march down Al-Azhar street in the commercial district. Police charged with clubs and dispersed the crowd.

A Jerusalem dispatch quoted Jewish intelligence reports as saying "large numbers" of Arabs are fleeing from the Holy City. The reports said the latest Arab exodus was northward to Ramallah and eastward to Jericho.

Petty Larceny—Grant Couillard of Wells, who was apprehended last night by Michigan State Police on a charge of petty larceny committed last May, was arraigned in Oliver Estenson justice court in Gladstone this morning and fined \$5 and costs of \$3.35. Couillard had run out of gas near Rapid River last May and borrowed gas cans which he failed to return. While in justice court, Mr. Estenson told Couillard that there had been a Grant Couillard in his court five years ago on a charge of drunk driving and that the court was still owed \$20.15. Estenson asked Couillard if it was he. Couillard said "yes" and paid the \$20.15 he owed. Couillard has been working in Milwaukee since last May.

Girl, 18, Acquitted Of Killing Parents Now Worth \$309,977

Los Angeles, July 16 (P)—Eighteen-year-old Beulah Louise Overell, whose parents were killed aboard their dynamited yacht last year, has an estate worth \$309,977.

This was disclosed in probate court by her executors yesterday. The girl and her former lover, George Gollum, were acquitted of murder charges in the deaths of her parents, financier Walter E. Overell and his wife.

SPOONERS ARE PROBLEM

Saginaw (P)—Spooners park their cars on suburban Towerline Road, Sheriff William A. Munroe complained. Then pedestrians came along to watch the spooners. The result is a traffic problem. So no parking signs are being erected.

Here's Something We Like to Tell!

An elderly fellow, who is unemployed and unable to work, asked for audience with the city council last night. He was urged to make it short, but to go right ahead.

The high cost of living, the man said, had forced him to incur bills beyond what his small income would permit. Several times he reiterated, "I want to pay those bills."

Could he have a light job?

The city council with Mayor Robert E. LeMire presiding, asked the man the usual questions such as, "Do you get a pension?"

When they were assured of his sincerity, the council asked that the city manager be informed and that a small job, which will not work hardship on the health of the old fellow, be found for him.

ONLY 4 FILE FOR ELECTION

Candidates Must Qualify By Tuesday At 4 p. m.

Prospective candidates for party nomination for various Delta county political offices are basking about filing their nomination petitions, the records at the county clerk's office here revealed.

Sheriff William Miron filed his petitions for renomination as a Democratic candidate this morning. He was the fourth candidate to formally enter the primary election.

Other petitions filed are for Roy Jensen, Republican, as representative in the state legislature, Marvin Coon for the Democratic nomination for county treasurer, and Charles Magnuson for the Republican nomination for county treasurer.

Candidates have until four p. m. Tuesday, July 20, to file qualifying petitions at the county clerk's office. It is reported that petitions are being circulated for numerous candidates for various county offices and it is presumed that many of them will wait until the final day to file the nomination petitions.

Democratic candidates for county offices are required to file a minimum of 56 signatures and a maximum of 203 signatures on their nomination petitions. Republican candidates for county offices must file a minimum of 46 signatures and a maximum of 183.

Obituary

ROBERT STUART ADAMS

Funeral services for Robert Stuart Adams, who died yesterday morning, will be held at 2 p. m. Saturday at the Anderson funeral home chapel. Rev. James H. Bell of the First Presbyterian church will conduct the rites. The body will be shipped to Chatham, Ontario, for burial.

Friends of the family may call at the funeral home at 7 o'clock this evening.

Mr. Adams was born in Chatham September 28, 1888. He came to Escanaba from Chicago where he was a contracting agent for a steel firm for many years, thirteen years ago. Mrs. Adams, who preceded him in death, was a sister of Dr. C. B. Kitchen and the late Dr. A. S. Kitchen of this city.

Mr. Adams was a member of the First Presbyterian church of Escanaba and also a trustee of the church.

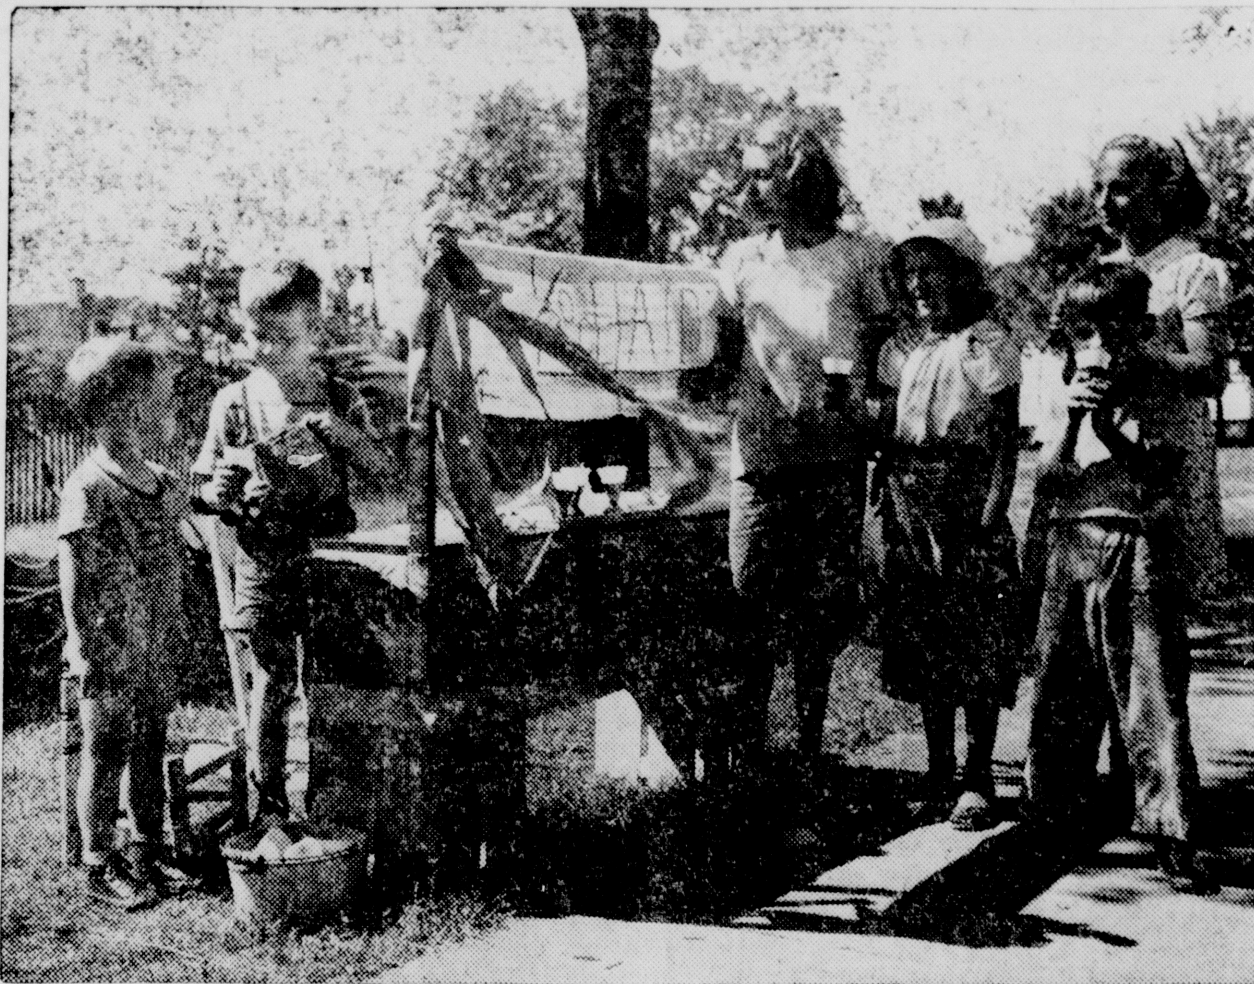

Extend Age Limits For Women Enlisting For Army WAC OCS

Age limits have been raised from 28 to 32 for young women interested in applying for the first post-war WAC Officer Candidate School, according to information received here by T-Sgt. Spencer D. Mathison commanding the Escanaba U. S. Army and U. S. Air Force Recruiting Station.

The previous age requirements of 20½ to 28 have been extended only to applicants for the first Officer Candidate Class. After the first class, the former age requirements will again be in effect. Other requirements remain the same. All women are eligible except those with dependents under 18 or married women without previous military experience.

Interested women are urged to apply immediately, as their applications must be completely processed by August 3rd. Application forms can be secured at the U. S. Army and U. S. Air Force Recruiting Station at 1215 Ludington St.

Itinerant Salesmen To Be Controlled; Ordinance In Sight

The city council last night instructed Loren Jenkins, acting city manager in the absence of A. V. Aronson to have the city police department keep a close check on all itinerant persons selling and soliciting in the city.

The council also instructed Dennis McGinn, city attorney, to contact Bay City officials for information concerning their ordinance governing itinerant vendors. Dudley Jewell, secretary of the Escanaba Chamber of Commerce, appeared before the council, advising them of several recent cases in this city where magazines, salespeople, lawn fertilizer peddlers and photographers have operated to the detriment of Escanaba citizens.

In the interim, the council has ordered the chief of police to check on all non-resident persons who are selling and soliciting in Escanaba. A preliminary check of each person desiring to sell by canvass and solicitation will be made.

Several ordinances of the city of Escanaba govern the operations of these itinerant travelers, but it was generally felt, at the council meeting last night, that these were not stringent enough to give adequate protection to Escanaba citizens.

Kell Gives \$1,000 To Pinecrest 'San'

The board of trustees of Pinecrest Sanatorium at Powers, Mich., announced the recent gift of \$1,000 from William Kell of Wilson, Mich.

This generous gift from Mr. Kell is not his initial contribution to Pinecrest Sanatorium. Several years ago, following the construction of the new addition to the institution Mr. and Mrs. William Kell furnished the main lobby of the institution in memory of their parents.

Mr. Kell stipulated in making this recent gift that these funds must be used for new equipment or construction, and specified further that none of the funds may be used in any way to defray maintenance expense.

Political Stupidity

THE DEMOCRATIC PARTY, concluding its national convention at Philadelphia early Wednesday morning, selected the only ticket available to it — Truman for president and Barkley for vice president. It is a losing ticket, as virtually everyone who attended the convention realized.

A strong faction within the Democratic party did not want Truman as its nominee, but there was no one else available. If the party had really felt that there was even an outside chance to win the election in November, Senator Barkley of Kentucky obviously would not have been chosen for the vice presidency. In the first place he is too old to be next in line for the presidency. Barkley is 70 years old and he will be 71 in November.

Moreover, Barkley's home state of Kentucky adjoins Missouri, Truman's home state, which deprives the Democratic ticket of the added strength that would come from a ticket embracing a more expansive area of the United States.

Barkley was chosen simply because he was the only man of reasonable stature within the party who was willing to accept the nomination. He was not even Mr. Truman's choice for the nomination but the president realized that he must accept Barkley as his running mate to avoid an even greater split within the ranks of the party.

In his speech of acceptance at the Democratic convention, the president announced that he will recall Congress in a special session. For what purpose? Simply to make the congressional chambers a sounding board for political campaigning.

In calling the special session, Mr. Truman is doing a great disservice to the American people. The session cannot possibly develop anything constructive for the country, operating as it will in the political atmosphere of a presidential election campaign. It can only convey to the world at large false impressions of the American scene. Undoubtedly the inevitable party bickering that will develop in the special session will provide some great ammunition for the Communists abroad in their campaign of vilification of everything American.

Mr. Truman has shown many evidences of his incapacities as president of the United States. The most stupid, however, is his decision to call a special session of Congress to use the national legislature as a vehicle to carry on his election campaign.

An Item In The News

A SHORT TIME AGO an item appeared in the news which, while it didn't make banner head, is an example of the kind of arduous progress that serves us all.

Last year, the item said, the death rate from tuberculosis dropped to a new low throughout the nation. For the first time in our history, the number of fatalities from this cause was under 50,000.

That wasn't the result of chance. It was, instead, the result of decades of hard and often unrewarding work by doctors and other scientists. A long list of factors had a part in the achievement—better medicine, infinitely improved methods of treatment for the afflicted, a generally higher standard of living, and so on.

Every major advance in medicine, save for rare instances where some revolutionary drug is discovered, is made much in this way. And the United States, with its system of medicine, unhampered by bureaucratic domination, has been a leader in conquering disease—a fact which has been proven in survey after survey. By contrast, medicine has generally been backward in the nations where it is controlled by the state—the standards of treatment have gone down while the cost, as in the case of all governmental activity, has gone up.

We in the United States are leading longer, healthier lives. Diseases which were almost sure killers not so many years ago now offer little danger. A system of voluntary prepaid medical care has been built up which brings the cost of treatment and hospitalization within the easy reach of the majority of people. These are achievements of free medicine which must not be forgotten.

Repeal Pledge A Mistake

THE PLATFORM of the Democratic party adopted at Philadelphia this week calls for the repeal of the Taft-Hartley labor act, which the Democrats claim has failed to meet its objectives. Thus, the Democrats have taken up the cudgel for the labor bosses whose autocratic power over labor membership was whittled by terms of the new labor relations act.

The old Wagner labor act which the Taft-Hartley law succeeded was perhaps the most undemocratic legislation in American history. The law itself was rigged heavily in favor of the labor bosses and its administration was even more grossly prejudiced. It delivered the labor man absolutely into

the hands of the union czars and he regained his freedom only when the shackles of bossism were broken by the Taft-Hartley law.

The Wagner law denied equal opportunity to all. The power that it gave to labor bossism was so expansive that it encouraged union leaders to repeatedly flout the public welfare and developed great abuses of this power. The Taft-Hartley law, on the other hand, has done much to restore labor-management relationship based upon justice and common sense.

The labor bosses continue to shout about the Taft-Hartley act as a slave labor law but independent surveys made among the rank and file of union members reveal conclusively that the boys who pay the dues do not feel the same way about the act as the labor bosses do. Now for the first time labor has a weapon to rid itself of its most vicious parasites, the Communists.

It might be interesting to recall at this point that although the Taft-Hartley act was sponsored and most generously supported by Republicans, it also drew affirmative votes from a majority of Democrats in Congress.

A Chance For UN

THE WAR in Palestine, like all wars, is a tragedy. And like most wars, it is needless. The active participants are no more responsible for its existence than the onlookers. For if the majority of the United Nations had taken steps to enforce partition the first shot might never have been fired.

But now there are signs that the Arabs, who began the fighting, may inadvertently be the means of stopping it. Their impudent refusal to renew the truce has cost them sympathy and support and has virtually forced the UN to take action.

Even the British government, which was so evidently pro-Arab, could scarcely continue to support the Arab states and still face world opinion. For the Arabs have so boldly and defiantly labeled themselves the aggressors that to disregard them would be to make a complete mockery of the United Nations and all it stands for.

So it was not surprising to hear America's Security Council representative warn Mr. el-Khoury of Syria that this country would support action under Chapter VII of the Charter. That action includes the severance of diplomatic relations, economic sanctions, interruption of communications, blockade, and military operations.

Of course there is no UN military force as yet, and no prospect of one. But military action might not be needed. The Arabs, cut off from arms and other war material by a UN blockade, would be in quite a different position from that of pre-truce fighting, when they could tap a pipeline of supplies from the British. And it is generally felt that the Israelis, given an opportunity to buy modern war material, could more than hold their own.

This speculation supposes that the big powers would act unanimously in setting the UN machinery in motion. Earlier the British, as mentioned above, obviously favored the Arabs. The United States, by an unhappy confusion of policy, ended up by being both anti-Arab and anti-Israel. The Russians have stuck to partition, but whether from conviction or from a desire to embarrass the United States remains to be seen.

Yet there seems to be good hope that, for once, the powers might be in accord. Our government, having stumbled once, would be unlikely to shift policy again. The Russians have nothing to gain but unfriendliness if they reverse their position. And the Arabs, by their actions, have made it almost impossible for the British to do anything but recognize and condemn aggression when they see it.

Take My Word For It

Frank Colby

WORDS LIKE "REFUGEE"

An important matter of usage will occupy this space today. It has to do with the rash of words ending in "-ee" which has broken out during the past ten years or so to give us some unfortunate and illegitimate coinages.

There are two kinds of "-ee" words in English: (1) Words from legal usage, such as assignee, consignee, mortgagee, payee, etc.; (2) words borrowed from the French or coined in imitation of French words, such as employee, fiancée, honoree, divorcee, etc.

Now such words denote persons who are the object of some action, or who undergo or receive something. A consignee is a person to whom something has been consigned (consign plus "-ee"); an employee is a person who is employed (employ plus "-ee"), etc.

Such words are proper when they are formed properly: refugee, from refuge plus "-ee"; draftee, from draft plus "-ee"; trainee, from train plus "-ee," etc.

Unhappily, some of the new coinages which have begun to appear in print are seen to be lacking in sense, and to be in violation of both logic and established form. Let's look at a few.

"Amputee." There is no such word as "amput," or "ampute," to which "-ee" or "-ee" can be added. On the other hand, "-ee" could be added to amputate, forming "amputatee."

World Events Analyzed

BY MARQUIS CHILDS

Philadelphia.—The ABC's of political power—or the lack of it—are written large over this humid, unhappy assembly of what was once a powerful and triumphant party.

If anyone took the time to read, they might learn. Above all, they could learn that political power is not conjured up out of nothing. It does not consist of press statements. It is not made out of radio broadcasts. It does not lie in leather-lunged cries for Eisenhower or Douglas.

These things may be a part of it. But essentially power must be grounded in organization. That is the lesson for those who tried by such amateurish means to engineer the stop-Truman drive. And that same lesson should be conned by candidate Harry S. Truman, although it is rather late in the day.

Candidate Truman is tagged with bossism. He was tapped by professional politicians at the start of his career and they have boosted him on up the political ladder.

Poor Political Organizer

But his chief weakness is his political ineptitude. He seems never to have learned the ABC's of political organization and how to use it. That is the supreme irony in the position of the man who must now try to guide the sulky and disgruntled forces of his party in something resembling a national campaign.

A great deal has been written about the faces that are missing here; above all, the men and women who created the New Deal; men and women sometimes brilliant and resourceful, sometimes arbitrary and mistaken. But another set of men far more fundamental are missing, too. I mean, of course, the bosses.

You need to look back only 12 years to another convention held here in Philadelphia to get a measure of the change. In 1936 the Democratic party assembled to renominate Franklin D. Roosevelt. That may well have been the greatest gathering of bosses ever under one political tent.

They were all there—the Hagges, the Kellys, the Crumps, big and little. They were potentates, each with his suite and train of followers, each from his own principality where power was more or less absolute.

Boss Tom Pendergast of Missouri was one of them. Short, thick, bullet-headed, he walked in majesty through the hotel lobbies. Two years before he had sent his man, Truman, to the Senate and the new senator was one of his following on that relaxed and happy occasion.

They renominated Franklin D. Roosevelt, and he came to Philadelphia to accept the nomination at Franklin Field. It was a night of magnificent moonlight, clear and warm, and Roosevelt, at the top of his political form, made it into one of the greatest rallies in our political history.

Those bosses are gone or they are tired and old, shorn of their power. They needed Roosevelt. That is to say, they needed a candidate with his winning qualities and his great capacity for personal leadership.

TRUMAN USED BY BOSSES
What is equally important, he needed them. He knew it; he never allowed himself to forget it. But he knew how to use them and their power for his own ends and that is the important distinction today.

In contract, Mr. Truman has been used by the bosses. This is not intended to sound sinister, since in spite of all the digging by determined diggers no one has been able to attach scandal or corruption to Truman's name. One reason Boss Pendergast chose Harry Truman to represent him in the Senate was because he had proved to be honest and loyal.

In Washington, however, Truman took his orders. He often took them too literally. Stubbornly Senator Truman fought for the man whom the boss wanted appointed to federal office. His loyalty was of the kind that foresees independence. If he had learned how to compromise the power of the boss, he might today be a different kind of president and a different kind of candidate.

Long ago, Lincoln Steffens, in his searching study of American cities, pointed to the importance of the role of the boss as a kind of broker between the haves on one side of the railroad track and the have-nots on the other side. The man in high political office must be broker for the power of the bosses. And without the skill and diligence of the organizer, the broker, the compromiser, no party—and in particular the Democratic party—has any very firm foundation.

There is still another lesson in all this. It is not hard to recall the talk of a "Roosevelt dictatorship" and even silly and hysterical suggestions that he intended to pass his power on to members of his own family. The dictatorship was building on the absolute power of the bosses. But where is it? Certainly not here in Philadelphia in the year 1948.

A columnist recently spoke of persons confined in concentration camps as "concentratees." There is no such word as "concentratee," or "concentre." The coinage is horrid. If there has to be such a word, why not form it regularly, thus: concentrater?

A fiction writer in the Saturday Evening Post invents the most offensive term of all: "mutilee." The word is supposed to mean "a mutilated ex-serviceman." Let us hope that the Post and the other great publications will ban the illegitimate and heartless term forevermore from their pages.

Such illiterate coinages as "amputee," "concentratee," "mutilee" will surely lead to others equally repugnant: "paralee" (a paralyzed person), "polee" (a person with polio), "cancee" (a person with a cancer), "hypertee" (person with hypertension, or too high blood pressure), "cerebre" (a person with cerebral hemorrhage).

I think it's time to call a halt. What do you think?

"Got Room for Any More Members?"

Ruark's Views

By Bob Ruark

Philadelphia—I have noticed no plank in either GOP or Democratic platform which promises the shortening of speeches or the prevention—painfully, if necessary—of extraneous wind from the speaker's perch.

Yet that is a campaign promise which if faithfully executed, might win a party more friends than the combined pledges of both.

My ears are crumpled and my brain is bent from the aimless eloquence of a bunch of guys named Joe, whose hollow oratory—committed for personal satisfaction—has induced mass somnolence on the convention crowd. Snoring, at first, and then bitter anger at the wasteful hours incident to the pointless gumbating of the lowercase politicians. They have nothing to say, and they say it mercilessly, wallowing in their own hyperbole like a hog in a bog.

Spectators Squirmed

The first two and a half days of the convention were devoted to this sort of thing, with the real business getting started on Wednesday afternoon. Then, on nomination night, it got worse instead of better. Narrow-gauge narrators clutched the microphones feverishly, and renominated Harry Truman in masterpieces of uninspired repetition. The hours dragged by, the spectators squirmed. Mr. Truman dozed in the alley, in a red leather chair, and still the cornfed confabbers droned on and on and on.

Such is the privilege of Democracy that some character in the Florida delegation, obviously added by the wonder of television, spent 20 minutes commenting on the glories of Democracy, and wound up his muddled discourse by nominating Paul McNutt for the presidency. Mr. McNutt, having been uninformed of this honor, near split a gusset laughing.

Earlier in the convention, there had been the endless addresses, not to mention the introductions, and the introductions to the introductions. "I give you, fellow Ammurricans, a man who..."

Not counting the introductions, the reports, invocations, songs, announcements and the usual parliamentary hocus-pocus, I counted up about 15 separate addresses from Monday night to Wednesday afternoon, and only one had any special significance. That was dear Alben's keynote, and dear Alben did real good, except he would have done a lot better if he had pared it down about 39 minutes.

Wrong Notions on Speeches

But I can sure suffer along without listening to the likes of Oscar Ewing, Roy Baker, Mike Kirwan, Mrs. Charles Tillet Fanny Perkins, Mary Norton, Homer Cummings, A. F. Whitney, William Dawson, Scott Lucas and even the beautiful Helen Gahagan Douglas. I imagine a lot of other people can, too, because the hall didn't even start to fill until they got down to business Wednesday afternoon.

There is still a popular belief among most politicians that a speech, to be good, must be long, labored and laden with every cliché out of Bartlett's quotations. You got to land them down with poetry, heave in a few fragments of the good book, and repeat, repeat.

INTO THE PAST

Ten Years Ago

Escanaba.—The congregation of the Norwegian-Danish Lutheran church will entertain at a reception this evening at eight o'clock at the church, which is complimentary to Rev. and Mrs. L. R. Lund, who are celebrating their silver wedding anniversary today.

Escanaba.—Mrs. Charles Neumeier and children are visiting with relatives in Menominee.

Escanaba.—Mr. and Mrs. Richard F. Uren and Mrs. Nellie Hillock of Milwaukee are visiting here with Mr. Uren's sister, Mrs. Victor H. Powers, 1111 Ninth avenue south.

Escanaba.—Miss June Ranguette has left for Antigo, Wis., where she will visit as the guest of Lila Jean Funk, formerly of Escanaba.

Twenty Years Ago
Escanaba.—Robert H. Gessner has returned from a Phi Delta Theta house party at Kelly Lake, Wis., which he attended last weekend.

Escanaba.—E. J. French has returned from Casper, Wyoming. Mr. French motored there from Milwaukee.

So They Say

It has a better chance to succeed without disturbing the peace if it operates as cold economics rather than as cold war.

—Curtis E. Calder, NAM spokesman, urging a separate government agency or board to run the ERP.

Women no longer work just for "pin money" or "something to do." Eighty-four out of 100 women now work to support themselves or others.

—Secretary of Labor Schwellenbach.

Stalin does not fear American dollars to fight communism, but he does fear American dollars going into the most modern military preparedness.

—Sen. Harry F. Byrd (D) of Virginia.

A curious disease called rostrum poisoning takes hold of a male politico when he hauls a nest of microphones back toward his belly and starts to spout. Prying him loose from that mike is a job for a jumbo boom, and now that television's here, the mugging is immense. The same disease causes female orators to screech like distraught banshees, and bump like burleycuc babies.

Some people mourn the advent of television, but not I. As television time becomes more and more valuable, there will be less and less inclination to devote its mechanical talents to the pointless maunderings of a bush-league bunco artist. This foreshadow was demonstrated Monday night, when one circuit sawed off Sen. Barkley to make room for a prizefight. And mind you, the old gent was making the one necessary speech.

We have entered into a speedy age, with shortcuts to everything, and it's obvious our outworn convention system is in for some updating. I tell you, fellow Ammurricans, this wind from the politicians must abate, or we shall be forced to form a fourth party, dedicated principally to more acetylation and less yackety-yak.

The Washington Merry-Go-Round

BY DREW PEARSON

Washington.—Footnote on Philadelphia—There is nothing more agonizing than to watch a person die. At Philadelphia it was equally agonizing to watch a once-great party in its death struggles.

It was especially agonizing because the doctor in charge wouldn't call in a specialist.

It seldom happens in real life anymore, because doctors have got over professional jealousy and use common sense about calling in specialists. But history will record that the tragic death struggles of the Democratic party at Philadelphia were largely because one very nice, optimistic little man sat serene and confident, claiming that all would come out right if things were left to him. He flatly refused to call in a surgeon.

At first the relatives protested, said they wanted a new doctor. But the little family doctor said no. His old-fashioned medicine had been good enough before, he said, and it was good enough now. So the relatives sat round the bedside, quietly calculating what inheritance they could salvage out of the deceased's estate. They were reconciled to the death.

Personally, I don't like to see people die; so I came back to Washington early where a perspiring state department is now grappling with the worst war crisis since before Pearl Harbor.

SHOW-DOWN IN BERLIN

Ire against Russia is so tense in Berlin that certain high-placed U. S. officials (civilians) have been urging Gen. Lucius Clay to break the Soviet blockade by force.

They want him to arm a food train in the American zone of Germany and send it speeding through the Russian zone to Berlin with U. S. troops in armored cars riding just behind the engine ready to shoot if the Russians resist.

These U. S. officials go so far as to plan countermeasures in case the Russians sabotage the rail line. They propose that a corps of U. E. Army engineers be sent along to repair any torn-up rails, also to repair the River Elbe bridge if blown up by the Russians.

Some officials, quite close to Clay, claim that Russia is not ready for war and would try to "localize" any trouble with the United States. There might be some clashes between U. S. and Red army troops around Berlin, they advise, but Russia would not let them spread to the rest of Europe. She would back down first.

General Clay, however, doesn't agree. So far he has rejected this explosive advice. He says that if an incident took place, you never can control men's passions. Trouble might spread whether Moscow wanted it or not. Privately, Clay has described such measures as "unwise and dangerous," likely to "commit us to war."

Instead General Clay favors economic sanctions, before making a move which could convert a cold war into a shooting war. For instance, Clay thinks that we have been too lenient with the Russians regarding shipping and air facilities, that we should crack down on the Russians economically. This would hurt, but not risk war.

In brief, here is one historic case where a soldier is reluctant to use force though civilians urge it. Congratulated by an old acquaintance on not being trigger-happy, General Clark remarked:

"Maybe that's why they keep a soldier in Berlin."

Note—Clay trained during the war under War Mobilizer Jimmy Byrnes, a great believer in the art of persuasion to accomplish things.

TITO'S PUBLICITY

Yugoslavia's frank Ambassador Sava Kasanovic was attending a diplomatic reception when Sen. Harley Kilgore, West Virginia Democrat, joshed him about Yugoslavia's break with the Cominform.

"I notice," Kilgore greeted the ambassador, "that Yugoslavia has been in the news lately."

"Yes," smiled Kasanovic, "we haven't needed a press agent for several days."

BEHIND THE NOTE TO RUSSIA

Here is the inside story behind the diplomatic protest sent by the U. S., France and England against the Russian blockade of Berlin.

Real fact is that the United States did not inspire the recent simultaneous notes. It was the pet project of British Foreign Minister Bevin.

Late at night, Bevin summoned U. S. Ambassador Lew Douglas and French Ambassador Rene Massigli. Handing them copies of a note, he said that his advisers had prepared the draft of a protest to Moscow and that the United States, Great Britain and France ought to dispatch it simultaneously.

"See what you think of it," he said. Ambassador Douglas replied that the United States would have to wait and study it. But the French ambassador told Bevin on the spot that the note was too strong. France, he said, could not go along.

Later the French rewrote the original Bevin note. They pointed out that the note was an ultimatum based on such strong language that the Russians could give only one reply—a flat no. Instead they suggested a milder tone with at least some points on which Russia could agree.

The United States concurred with the French and the final notes were based upon the general ideas proposed by the French.

BERLIN MERRY-GO-ROUND

In Berlin, Ambassador Robert Murphy was awakened one night by the sound of singing and tap dancing in his cloistered garden. Going to the balcony, he discovered the entertainer was the lone American sentry stationed there to guard him. When Murphy rebuked him mildly, the G. I. said: "Sorry, sir, but that tune is a favorite of mine."

BABSON VISITS IN GLOUCESTER

He Compares Conditions With Boyhood Days

By ROGER W. BABSON
Gloucester, Mass.—I am back again from an annual visit to my old home city. Cannot help reminiscing and comparing conditions today with those of my boyhood days.

Certainly the people now have much more in food, clothing and shelter than ever before. They dress better and have better homes. Probably over half the families have automobiles and most children go to high school. Whether these young people are any happier than we were, is questionable. A ride on a merry-go-round is no more fun today at 25 cents than at a nickel in my day.

These better conditions are not due to the people working harder or longer; in fact every one worked ten hours a day when I was a boy. These better conditions are due to the machine age and mass production. The chain stores have also brought goods to the people for less money although they are hard on the local merchants for whom I truly feel sorry. Surely, if some of the old time storekeepers should come back they never would recognize Main Street, bordered on both sides with flashy "chains", automobiles and gas stations.

Opportunities Are Less
The freedom and opportunities which we boys had fifty years ago no longer exist. Not only is it difficult now to get a good job without belonging to a labor union, but almost every trade is governed by laws and regulations. Everyone with whom you deal, from the nurse who takes care of your baby to the undertaker who burns you must register and have a license. This applies also to druggists, plumbers, painters, electricians, builders, masons and even barbers. Ostensibly, these "examinations" are demanded to protect the public, but they are fast developing into a racket.

Not only are young people handicapped today in getting jobs and learning trades, but the wage and hour laws discourage employers from building new plants and expanding. The "drive" and willingness to take a risk, so evident in my boyhood days, is very rare today. Almost all are depending upon something apart from their own brain, thrift and energy to support them. It may be a state law, a labor union, a pension or some stocks and bonds, —or perhaps Uncle Sam! Courage is lacking. The present habit of avoiding personal responsibility for one's troubles will someday cause a smash.

Education Is Worse
The most dangerous change is the source of education. In my boyhood our education came from the home, the school, and the church. Today these great institutions have lost their grip on the

Escanaba Groups In U. P. Legion Parade Tomorrow

Three Escanaba organizations will be featured in the parade to be held during the Upper Peninsula American Legion convention at Ishpeming tomorrow afternoon. The parade will begin at 2 p. m.

The Escanaba units are the American Legion all-girl drum corps, which also will perform at the convention music festival to be held under lights at the Ishpeming playground at 8 Saturday evening, the National Guard unit, Company C of the 107th Engineer Combat battalion, and the Escanaba Cubs baseball team.

LEAVE AT 11 A. M.
Members of the Delta county National Guard unit must be at the state fairgrounds armory ready to go by 11 o'clock Saturday morning. The first group will leave at 11 in order to be in Ishpeming in time for the parade at 2 p. m. Those who have to work until noon will leave by truck at 1 p. m. to join the battalion bivouac.

youth. The young people of Gloucester and most every other city are today being "educated" by movies, radios and comics. None of these existed when I was a boy. They must be controlled or "God help America". The curse of liquor is bad enough, but the liquor problem is no worse now than during my boyhood. Our school committees are asleep.

Perhaps this flood of so-called comics (I refer to the pamphlets not to the newspaper strips) are perhaps the greatest new danger which I notice. Fifty years ago one could get the Police Gazette in most barber shops and saloons, but these new "comic" magazines are everywhere and are very much worse. I wish every reader of this column would buy and read a half dozen of these terrible publications; but then, please burn them! You will soon realize that these cursed comic magazines are responsible for most of today's juvenile delinquency.

The drum corps was the "hit" of the 1947 Legion convention in Menominee. It also performed between halves of the annual all-star football game in Negaunee last year and the Green Bay Packer - Detroit Lion football game in Green Bay last fall.

In addition to appearing in the parade with all other National Guard units in Upper Michigan, the local Guard organization will bivouac Saturday night at the Ishpeming winter sports area. It is expected that many convention delegates and guests will inspect the U. P. battalion bivouac area and heavy equipment during the convention.

Not only will the Cubs appear in the parade, but they will compete against Houghton in the finals of the Upper Peninsula American Legion junior baseball tournament. Houghton is the twelfth district champion, and Escanaba is the eleventh district finalist.

A highlight of the convention will be a memorial address by Governor Kim Sigler to be delivered at special ceremonies preceding the music festival tomorrow night.

Several state and national American Legion officials and state dignitaries will attend the U. P. convention. Among them will be Arthur H. Clarke, prominent South Haven business man and civic leader, who heads the American Legion in Michigan, and Mrs. J. J. Perabek, of Algoma, Wis., national vice president of the Legion auxiliary.

Another distinguished guest will be James F. O'Neil, Manchester, N. H., national commander of the American Legion.

REAL PLUM PICKER
"Little Jack Horner" was a real boy. At the onset of a campaign against monasteries, the Abbot of Glastonbury Abbey sent to Henry VIII the title deeds of neighboring manors. On the way, Horner, the messenger, "stuck in his thumb and pulled out a plum" in the shape of a title deed to the Manor of Mells, which he kept.

Hibernation Of Germs Plays Part In Malaria Cases

Washington—Hibernation plays a part in the time interval between relapses of malaria, Drs. G. Robert Coatney and W. Clark Cooper of the National Institute of Health told the Congress on Tropical Medicine and Malaria here.

The hibernating is done by the malaria germs, or parasites as doctors call them. This hibernation seems to be the reason why there is a long, over-winter period between a first attack of malaria and the first relapse in patients who get malaria in the United States. It may also be the reason for the spring wave of malaria in other temperate-zone regions.

Malaria germs from the tropics, however, such as attacked our fighting forces in the South Pacific, do not seem to hibernate. Relapses come in close succession, as many a veteran knows.

FILE FOR SECURITY—Twin brothers William Johnson (standing) and Louis P. Allard (sitting), of 612 Baker avenue, Menominee, took no chance of losing social security benefits due them—as many have done by filing too late. Shortly after reaching the age of 65, they ap-

Twin Brothers Apply For Social Security Benefits Here Upon Attaining Age Of 65

For the first time in the history of the Escanaba social security office, twin brothers filed simultaneously for social security benefits upon reaching the age of 65.

It goes without saying that they reached age 65 simultaneously, but when they both marched up to Supervisor Carl L. Johnson's office on the third floor of the Escanaba post office this week to file their security insurance payments, Johnson knew he had something for the record.

The gentlemen in question are Louis P. and William Allard, of 612 Baker avenue, Menominee, who celebrated their 65th birthday last Saturday. They were born in Menominee in 1883 and have lived there all their lives.

Johnson's records disclose that many persons lose many dollars because they do not apply as early as they are entitled to apply for social security benefits.

"This is certainly not true in the case of the Allard brothers," he said. "They have done the right thing. And in our particular area—Delta, Menominee, Chippewa, Luce, Schoolcraft and Mackinac counties—if more people applied or at least inquired about their social security rights and benefits upon reaching the age of 65, they would be many thousands of dollars ahead in the long run."

Louis is plant chief of Michigan Bell Telephone company in Menominee, a job from which he will retire this July 30. William, an insurance agent in Menominee for many years, retired about two years ago. Both have been covered by social security since the law became effective Jan. 1, 1937.

Louis, incidentally, is the second oldest employee of Michigan Bell in the Upper Peninsula. He has been with the company for 45 years, and as far as is known, only genial Seth Micklow of the Marquette, Mich., exchange can beat that record. Seth has been on the job for Michigan Bell for approximately 50 years.

Excellent Service—"Yes, Johnson has given us excellent service," Louis Allard said. "And we are grateful to him for it."

And, in return, Johnson declared that Michigan Bell does its employees a great service by keep-

ing in close contact with the social security office and advising its employees to contact that office as soon as possible after attaining the age of 65 to avoid losing any benefits due them.

So William will receive his first check for the month of July, and Louis, who will finish out the month with the Michigan Bell, will receive his first social security check for the month of August.

But the Allard story doesn't end there. Eleanor Allard, 67 years of age, wife of William, was in the office with the two brothers. She applied this week, too.

The Allards are well taken care of.

And the reason for this is—as pointed out by Supervisor Johnson—the Allards are taking good care of themselves.

For BETTER GARBAGE SERVICE

City crews are trying to improve your garbage service. This can be accomplished if citizens will observe the following rules carefully:

1. Place all cans within five feet of alley line. Homes with no alley should place cans as close to street as possible, as new and larger trucks cannot back into narrow driveways without loss of time.
2. All cans must have handles and covers UNATTACHED, and be of reasonable weight and of a size NOT TO EXCEED 30 GALLONS. (50-gallon oil drums will not be handled).
3. Garbage must be wrapped, grass cuttings must be placed in containers (not out in the street). If ashes and other rubbish is placed in containers near your garbage can the garbage crew will take them along.
4. Waste building material and heavy tree trimmings must be hauled by private agencies.

Note: Your garbage will usually be collected the same day every week. However, it may vary a half day or so because of collections being heavier from one week to another.

Summer Employment Is Special Problem In Social Security

Summer employment always presents a special problem to the Social Security Administration, according to Carl L. Johnson, manager of the Administration's office in Escanaba, Mich.

"Students and other seasonal workers in industry and commerce, including those who work in canning factories, need social security account numbers so that their employers may properly report their wages for social security purposes. Those who work part time are also covered by the system and should promptly show their social security card to their employers."

However, Mr. Johnson cautions students as well as others not to get a social security account number until a job is definitely in sight. "Once a card is obtained, it should be kept in a safe place. It should be shown to each

employer. The employer should copy the name and account number from the worker's social security card rather than trust the worker's memory. Each year thousands of social security account numbers are incorrectly or incompletely reported on social security tax returns," he said.

"Workers should check the amount of wages credited to their social security account at least once every three years. Correction of errors ordinarily cannot be made later than 4 years after wages are earned, and card forms for this purpose are furnished without charge by the local social security office," Mr. Johnson said.

If you have lost your card, or if your name has been changed, through marriage or otherwise, you should contact your local social security office for a duplicate card showing your new name.

The Escanaba office of the Social Security Administration is located in the Post Office Building. Office hours are from 8:30 a. m. to 4:45 p. m. Monday through Friday.

The Saddle Shoe Set

By Teen Ager

No one could ever hope to measure the work which was done by them during the teaching years of two Escanaba high school teachers, who recently resigned—Bert Henne and Clarence Pearson. Mr. Henne will always be remembered by both the students and the public for the fine senior play performances he directed year after year, for the endless hours he spent in debate, spring forensics, and commencement work, for his unending store of ideas for magazine campaign themes, and for his excellent teaching of French, Latin, and dramatics. Mr. Pearson, we know, will go far in his new job with the Crowell Publishing company, for his financial handling of each year's magazine campaign, made success after success, every year topping the one previous. This year set a new financial record, in the World Series magazine campaign. Baseball Commissioner "Happy" Pearson as usual handling the reins. His untiring efforts have done much to make possible the buying of much-needed school equipment, such as the school public address system, and the establishment of a student loan fund. Mr. Pearson taught commercial subjects and was in charge of the co-op program and veterans' education.

Junior Paul, 46 graduate, who took part in the Navy V-5 program, is among the honor students of Michigan Tech. Junior, who attended the college's Soo branch, had an average of above 90 for the spring term recently completed. Another Escanaba boy, Norman Hanson, was also in this honor group.

Jim Marsieck, who will be a senior at St. Joseph's next fall, is employed digging graves at Lakeview cemetery. Appropriately enough, Jim lately has been dubbed with the nickname, "Digger."

Bud LaViolette, who also will enter his senior year at St. Joe's when school opens, is working at the Provencher Sport shop, while 1948 St. Joseph's graduate, Bill Courneene, is employed by the Escanaba Paper company.

Typing names, addresses, and car license numbers, is occupying Roger Coolman's time right about now. Roger, who graduated from Esby high this year, is employed by the B. F. Goodrich company in the above capacity. Payment is made by the number of names, addresses, and license numbers typed. Remembering Rog's speed on the machine when doing typing for the high school Escanaba, he, no doubt, has a gold mine on his hands. —B. A. D.

Miss June Wurth, daughter of Mr. and Mrs. Peter J. Wurth, 1201 Stephenson avenue, and Robert Harold Sjoquist, son of Mr. and Mrs. P. R. Sjoquist of Gladstone repeated their marriage vows in an afternoon ceremony July 10 at Bethany Lutheran church before Rev. Gustav Lund.

Attendants were Mrs. John Baum, the bride's only sister and Reuben Sjoquist, only brother of the bridegroom.

The bride wore a white summer suit and picture hat with pink gloves and slippers and a corsage of white roses and lilies. Mrs. Baum wore a gold summer suit with matching accessories and a corsage of white roses and gladioli.

The bride's mother was dressed in a pink and black gown with white accessories. Mrs. Sjoquist wore black sheer with matching accessories. Matching corsages were worn by the mothers, Mrs. Wurth's of pink carnations and white roses and Mrs. Sjoquist's of red roses.

Garden flowers and lighted tapers decorated the altar and chancel of the church for the ceremony. Dorothy Norby DeGrand, soloist, sang "Oh Promise Me" and "Because." Miss Ruth Glad was organist.

A dinner for 20 guests was served at the Log Cabin followed by a reception at the bride's home. White flowers were arranged with the three-tiered wedding cake, topped by a tiny bride couple, as the centerpiece.

The couple will live in Gladstone at 1320 Lake Shore Drive. Wedding guests included Mr. and Mrs. Norman Kindervater and Mr. and Mrs. Werner Bergeren, Oak Lawn, Ill.; George Clifford, Chicago; June Holmes, Rochester, N. Y., and Mrs. Sally Tipke, Haines City, Fla.

B. & P. W. Club

The Escanaba Business and Professional Woman's club is holding its informal summer meeting at the Log Cabin Monday evening at 6:45 o'clock. A grippers' forum will feature the program. Reservations may be made by calling Caroline Nyström, 815, or Mrs. Lillian H. Reynolds.

The Equitable Reserve association will hold a picnic Sunday at Pioneer Trail Park. Members are asked to have their own picnic baskets. Coffee, ice cream and pop will be served by the association.

WATER MAINS NEARLY DONE

Provides Additional Fire Protection In Area

Laying of new water mains in the south part of the city by city crews has almost been completed and the work should be finished this week, it is learned from City Manager H. J. Henriksen.

The new main starts at the alley between Montana and Minneapolis on 16th street and goes south to Minneapolis, then west up Minneapolis to Lourie, south on Lourie to the MacGillis-Gibbs where it reduces from 4 inch to 1 1/2 inch and continues on to the houses at South Gladstone.

The new mains will provide better water service to that section of the city in addition to furnishing far better fire protection.

TROOPER KILLS RUNNING COYOTE

Joe Svoke Demonstrates Ability With Pistol

Trooper Joe Svoke yesterday got off one of those 'once in a lifetime' shots which should but won't earn him a sharpshooter's medal but which enriched him to the extent of \$20.00.

Trooper Svoke was riding with Trooper Glenn Perry on a woods road northwest of Cornell when a coyote was sighted and it ran down the road directly in front of the auto.

Trooper Perry speeded up the auto in an effort to gain on the animal, and Trooper Svoke unlimbered his pistol, pulled up and fired and the coyote fell end over end and came to a quivering stop. As the auto came to a stop investigation revealed that Svoke's shot caught the animal in the back of the head and came out by the left eye.

He turned it over to the conservation department and in turn received a certificate which entitles him to a \$20 bounty for removing a female coyote, classified as a predator, from the State of Michigan.

Full Board Lacking So School Officers Will Be Picked Later

The Gladstone Board of Education met Thursday afternoon at the school offices for purposes of reorganization but inasmuch as a full board was not present the naming of officers for the year was set aside until a later meeting.

Canvass of the vote cast in the annual election last Monday was made by the partial board, however, and revealed no change from the unofficial returns announced earlier this week.

The canvass revealed 324 votes cast for Soren Johnson, 292 for Dr. O. S. Hult and 146 for Martin Becker.

GOLDEN WEDDING—Mr. and Mrs. Isaac Pawley, of Gulliver, will observe the fiftieth anniversary of their marriage next Sunday afternoon. From 2:00 o'clock on they will maintain open house to all of their friends.

Will Observe Golden Wedding Next Sunday

Sunday will mark the completion of fifty years of married life by Mr. and Mrs. Isaac Pawley and they are holding open house to their friends throughout the afternoon at their home 10 miles east of Manistique.

Technically speaking, their wedding anniversary falls on July 20, but the celebration was advanced two days to permit out of town relatives and friends to attend.

Mr. and Mrs. Pawley were married at the home of Mrs. Pawley's brother-in-law and sister, Mr. and Mrs. O. D. Parker near Marquette on July 20, 1898. The Rev. James Shank, the local Methodist minister at that time, performed the ceremony. Mr. and Mrs. Charles Wilfong, the latter a sister of Mr. Pawley, both now deceased, were the attendants. The honeymoon trip was a day's excursion of Mackinac Island.

The young couple resided for a short time at Marquette, later moving to Manistique, and for the past forty years, with their family, have operated their present farm home.

Mrs. Pawley, who was Bessie Leonard before her marriage, was born at Gouveneur, N. Y., and grew up in that community. It was while here on a visit to her sister when she was 18 years old, that she met the man she was to marry. Mr. Pawley, then 23, had resided in Manistique since he was a child of seven, coming here when his family moved from Angus, Ontario in 1881.

The Pawleys have four sons,

Isaac, Jr., Kenneth, Glen and Leonard, all of the Manistique and Gulliver vicinities. All are married and there are six grandchildren in the family—two girls and four boys.

Mr. Pawley has taken an active part in county affairs, having served as supervisor of Doyle township for five years, and on the county road commission and on the board of social welfare for six years. They are members of the Methodist church.

Cotton mills of western Europe have been using an increasing amount of American cotton since the war ended.

County Fathers Still Worrying Over Welfare

Ways and means of financing Schoolcraft county's relief load still continues to be the county supervisors' No. 1 problem.

At an adjourned meeting of the supervisors Thursday the problem was discussed and a solution decided upon which the members declined to make fully public until its legality had been tested.

Agner Delhin, chairman of the board, in discussing the problem, stated that funds for carrying on the county's welfare activities are practically exhausted and the situation arising is such that it will have to be treated as an emergency.

The county in the past few years had not been confronted with direct relief needs and no emergency funds were available when an unemployment situation brought demands for assistance for many families. Meeting these relief needs exhausted the relief funds ordinarily set aside for sanatorium and hospital treatment funds.

Delhin explained that if the present relief load can be financed, next year's problem will not be so difficult of solution. Expenditures for hospitalization are on the increase, he added.

Thursday's meeting has been adjourned to Friday, July 23, when a definite answer to the problem is expected.

DISCUSS FERRY TO NORTHPORT

Representatives Of Two Cities To Confer Here

The Manistique - Schoolcraft Chamber of Commerce at a meeting of its directors Wednesday evening, directed Lars Olson, secretary to correspond with a similar organization at Northport involving it to send a delegation to Manistique some time in the near future to discuss a proposed automobile and passenger ferry between Manistique and that port.

The invitation came in response to a letter from Marion H. Yoder, of Northport, in which he asked cooperation with people of this community in the furtherance of such a project.

In his letter, which was read at the chamber meeting, he stated that representatives of Leelanau county and Grand Traverse county, desiring to establish a closer link between their area and the Upper Peninsula had met and discussed the matter in considerable detail.

Connected as that area is with good trunk highways, Northport could serve as embarkation point to the Upper Peninsula for motorists from Detroit, Flint, Saginaw and Lansing and with Manistique the nearest Upper Michigan point, service between the two places "could save many valuable hours for the businessman and the traveler," Yoder stated.

Although no definite ferry system was mentioned in the letter, it is understood that it would be operated on the same basis as the state ferry system between St. Ignace and Mackinac City.

Blockade Weapon In Anti-Rat War

Washington, (SS)—Rat-killing drives are all to the good, but for permanent results in the war on rats the blockade is the deadliest weapon, declared Albert M. Day, director of the U. S. Fish and Wildlife Service, in a talk here. Mr. Day spoke as guest of Watson Davis, director of Science Service, on Adventures in Science, heard over the Columbia network.

Depriving rats of free lodgings at man's expense is the first objective in the fight, the speaker pointed out, quoting the three-pointed slogan: "Build 'em out, starve 'em out, and finally kill 'em off." To deny rats living space, he continued, all buildings should be either on rat-tight concrete or masonry foundations or on two-foot concrete piers, higher

C. of C. To Press Second Member Drive Shortly

A second call for memberships to the Manistique - Schoolcraft Chamber of Commerce will shortly be issued.

The matter of memberships was discussed at the regular meeting of C of C directors Wednesday evening after it had been revealed that response to the first call had been generous enough but several members who had been counted on had not as yet joined for the current year.

Also brought up for consideration at the meeting were the new folders advertising the Manistique resort area.

These folders are generally considered a great improvement over those now in use in that the reading matter has been revamped to more adequately present the advantages of the area and a full color picture of the Big Spring greatly enhances the appearance of the folder.

These folders will not be available for distribution until next season. There are plenty of old folders still available.

Robert Berger Is Elected Head Of Education Board

At a reorganization meeting of the Manistique Board of Education held Tuesday evening, Robert Berger was elected president; Dr. George Shaw, vice president; Keith Bundy, treasurer and Mrs. Alice Reilly, secretary.

A change in the time for holding regular meetings was also voted. Hereafter the board will meet the second Tuesday of each month instead of the last Wednesday.

"It Seems To Me"

BY NM WARD

The Cleveland Indians and Boston Braves, respective American and National league leaders, have just embarked on long road trips, but they aren't a bit scared.

Ordinarily, when a leading team takes off on a jaunt, the still, voices of those in second and third places rise to a clamor, saying this is where we take over. But such is not true in the case of the Indians and Braves.

They like the road. They do better on the road than they do at home. The Tribe has won 25 and lost only eight away from home for an amazing .758 record. What have they done at home to date, excluding yesterday's game? Split even, with 20 wins and 20 losses.

The Braves are the same way. Up to yesterday, Boston had won 24 and lost 13 on the road for a .649 average, and at home it has won 22 and lost 18 for .550.

The Tiges are not on top of the league by a long shot, but they have the same habits as the Indians and Braves. Up to yesterday (Wham!), the Tigers had won 22 and lost 17 away from home for a .564 average, while winning 17 and losing 20 in Briggs stadium for a dismal .459 at home.

The first hole-in-one of the season in this area! Bud Malloy, of Manistique, negotiated it on the par three 156-yard hole at Indian Lake while playing twilight golf yesterday afternoon with Bill Shinar, Carl Carlson and Ernie Ecklund.

More golf notes: The Escanaba talent is being lined up for an invasion of the Upper Peninsula and Northern Wisconsin Elks golf tournament at Ironwood July 24 and 25. . . . The U. P. Elks tourney could develop into a bangup meet second only to the official U. P. Golf association championship. . . . Escanaba's first inter-club match of the season will be played here Sunday afternoon, with Marquette invading. . . . And Tuesday—twilight night—Escanaba and Highland will tangle in inter-club play.

Gil Dodds, America's ace miler won't run in the Olympics at London this summer, but he and his wife will go along as spectators. . . . The Massachusetts VFW is seeing to that. . . . They'll send them over by plane. . . . Shades of Scotland Yard! . . . Pinkerton men, no less, are going to handle the crowds at George S. May's All-American and World's championship golf tournaments at Chicago's Tam O'Shanter.

Important communique from George Mathison, Rainbow league secretary, Gladstone: All Rainbow managers must have their rosters in to Mathison by Sunday, July 18; no roster changes can be made after that date.

Shotton Replaces Lippy As Bums' Manager; Leo May Be Next Giant Chief

New York, July 16 (AP)—Mel Ott resigned today as manager of the New York Giants and was succeeded by Leo Durocher, whose job as pilot of the Brooklyn Dodgers was turned over to Burt Shotton.

Cincinnati, July 16 (AP)—Branch Rickey announced today the release of Leo Durocher as manager of the Dodgers and the appointment of Burt Shotton.

He made the statement after the club had called "a very important press conference for noon."

The press conference was called amid rumors that Ott had quit, that Leo Durocher had resigned as boss of the Brooklyn Dodgers and would replace Ott.

The Brooklyn Eagle, without giving the source of its information, said it had learned that the rumors were based on fact.

Washington, July 16 (AP)—Ray Scarborough scattered seven hits to give the Washington Senators a 4-1 victory over the Chicago White Sox here last night. It was Scarborough's first win in five weeks and his sixth of the year against five defeats.

Bob Judson, Escanaba's tackle and fullback bulwark of the 1947 season, and Dave LeGault and Clifford Gillis, Gladstone mainstays, were named on the South all-star squad to compete against the North in the third annual U. P. all-star football game in Neagunee Saturday night, Aug. 14. Eight Menominee, five Iron Mountain and four Iron River players predominate the South squad of 25 huskies who will attempt to beat the North for the first time since the all-star classic was originated.

Besides Gladstone and Escanaba, Stephenson, Norway, Crystal Falls, Kingsford and Stambaugh are honored with one each on the South squad.

TICKETS ON SALE HERE

Tickets for annual U. P. all-star football game in Neagunee Saturday night, Aug. 14, were placed on sale at Gust Asp's yesterday. Requests for tickets have been received from all sections of the U. P. and northern Wisconsin, and an early sellout appears likely.

Ernest Belanger, speedy and shifty Eskymo back, was named an alternate, as were Clint Butler and John Kuchan, of Gladstone, and Carl LaPointe, of Stephenson.

Other members of the first 25 on the South squad are Frank Kopsinski, Iron River backfield ace and member of the all-U. P. and all-state 1947 eleven; Mike Shatusky, Menominee speed merchant; Paul Gingress, Iron Mountain; Bob Wesoloski, Menominee; Dave Freeman, Iron Mountain; Earle Hosking, Iron Mountain; Roland Rometti, Iron River; John Farley, Menominee; Joe Oreshoski, Menominee; Bill Weber, Kingsford; Gene Davis, Crystal Falls; Ted Defresne, Iron Mountain; Donald Choquette, Stambaugh; Albert Godin, Menominee; Eugene James, Iron River; John Compton, Menominee; William Trehy, Stephenson; Donald Hill, Norway; Dave Dwyer, Iron Mountain; Doug LaLonde, Menominee; Wayne Melchiori, Iron River; and Dick Endman, Menominee.

Other alternates are Don Hoaglund, Norway; James Fredrickson, Donald Lord and Donald Parolari, all of Stambaugh. Clyde Strasler and Homer Weber, both of Manistique, were named on the North all-star squad, as were Chuck Lavender and Jack Gooseberry, both of Newberry. Dick Harbick, Manistique, was named an alternate on the North squad.

Other members of the North squad are Fred Rozich, Jack Mischica, both of Calumet; Randolph Rivers, Philip Hiney, George H. Collins, all of Neagunee; James MacKenzie, Jack Silbald, Jack Traynor and Steve O'Neill, all of the Soo; Francis Tervonen, of Hurontown; Pete Nobel and Ron Nettell, both of Houghton; Bill Ryan, Huron Mountain; Jerry Herman and Roy Goethe, of Ishpeming; Alden Limakka, Wakefield; Bob Salani, Hancock; Bob Barron, Ramsey; Dave Webber, Bessemer; Ronald Michaelson, Joe Pavlovich, of Ironwood.

Red Sox Snap Detroit Seven-Game Win Streak

Boston, July 16 (AP)—The Detroit Tigers' seven game winning streak came to an abrupt end yesterday as they dropped two games to the Red Sox although outlasting the Bostonians in both games.

The first was a free hitting afternoon affair in which the Red Sox bunched a dozen hits to slam out a 13 to 5 decision. It was Jack Kramer's eighth straight win while Freddie Hutchinson was charged with the loss.

The second game, played under lights, was a real pitcher's battle with Mel Parnell of the Red Sox besting Paul "Dizzy" Trout, 3 to 1. Trout pitched ahead of four hits, but Parnell held the Tigers to six, walked nary a man and drove in two runs himself with a third inning double.

The double loss marked an inauspicious beginning for the Tigers' 14-game Eastern road trip and they called on Virgil Trucks (6-5) to get them back onto victory road in the third game of the series today. Joe Dobson (10-6) was due to work for the Red Sox.

The only bright spot for the Tigers in that opener was George Kell's three-for-five. Stan Spence, filling in for the injured Ted Williams in left field, had two out of four.

A crowd of 14,403 fans sat through the 2 hour and 26 minute first game. The night game, played before 33,893 fans, took only 82 minutes to play—one of the fastest games of the season.

Trout, trying for his 10th win suffered his 10th loss instead. The game was settled in the third inning when Boston pushed over all three runs.

The Tigers came up with their lone run in the fourth on Eddie Lae's double and Hoot Evers' single.

Sunny Jim Fitzsimmons, veteran horse trainer, professes to be bewildered by the complexities that have entered the horse racing game in his time, but he admits it was even simpler in his father's day. . . . "Pop took some horses to Saratoga one year," says Mr. Fitz. "They shipped to Albany by boat and then walked to Saratoga. Pop once walked a horse from the Eagle race track, which was near Chester, Pa., to Marcus Hook, about 15 miles; rode him in two heats and walked him back—what do you think he got for that day's work? The purse was only \$5 and pop got 25 cents."

Ol' Satchel Relieves Bob Lemon To Cop First Major Loop Victory

By Ralph Roden

Associated Press Sports Writer
It's Bill Veeck's turn to laugh now. Old Satchel Paige has contributed an important win to the Cleveland Indians' pennant drive.

When Veeck, Tribe president, signed the ageless Negro pitcher to his first major league contract on July 7, some observers said it was just another of Veeck's stunts to keep the turnstiles humming in the forest city.

But Paige, who has played for and against some of the greatest names in baseball, is demonstrating that he still has some stuff in his right arm which critics allege is anywhere from 39 to 50 years old.

Paige shuffled out of the bullpen in Philadelphia's Shibe park last night in the second game of a twilight-night doubleheader against the second place Athletics and gained credit for an 8-5 Cleveland victory.

Paige Relieves Lemon

The triumph enabled the Indians, who won the first game, 6-1, behind the four-hit pitching of Steve Gromek, to increase their first place margin over the Athletics to two-and-one-half games. Paige, who hurtled two scoreless innings over St. Louis in his big time debut last Friday night, relieved starter Bob Lemon in the sixth and snuffed out a Philadelphia rally that brought the A's to within a run of a tie.

The Indians scored once in the seventh to take a 5-3 lead but the A's came back and tied it up when Hank Majeski cuffed one of Paige's slants for a two-run homer. But after that Paige applied the brakes.

Ken Keltner quickly put Cleveland ahead again by hammering his 21st homer of the year in the eighth innings and Larry Doby clinched the decision for the cunning Paige by binging a two-run homer in the ninth.

The twin setbacks cut the A's margin over the third place New York Yankees to one percentage point as the world champions beat the St. Louis Browns, 4-2, in a night tilt at New York.

Bums Beat Reds
At Washington, Rae Scarborough hurled the Senators to a 4-1 seven hit conquest over the place Chicago White Sox.

The Boston Braves pulled six games ahead of the runnerup Pittsburgh Pirates in the National league's pennant race, beating and tying the Chicago Cubs while the Pirates split with the New York Giants.

Johnny Sain posted his 12th victory 2 to 1 in the first game. Allowing seven safeties.

The second game was called at the end of 13 innings because of darkness with the score tied 1-1. The Pirates clipped the Giants, 4-3, in the first game. Ralph Kiner blasted his 24th round tripper for the Pirates in the eighth inning to tie Cincinnati's Hank Sauer for the major's home run leadership. Ray Poat hurled the Giants to a 10-3 triumph in the second game, scattering eight hits to gain his ninth victory.

The Brooklyn Dodgers last night moved into a fourth place tie with the Giants, beating the Reds, 5-3. In another night tilt at St. Louis, Dutch Leonard hurled the Philadelphia Phillies to a 3-1 victory over Harry Brecheen and the Cardinals.

JOB INSURANCE PAY EXPEDITED

MUCC Explains Plan At First U. P. Meeting

All Michigan Unemployment Compensation commission offices in the Upper Peninsula now have authority to process completely all local job insurance claims and to write out unemployment benefit checks to claimants, it was announced at the House of Ludington yesterday by James F. Moore, Detroit, executive director of the MUCC.

Moore presided here at the first meeting of the commission ever held in the Upper Peninsula. U. P. offices were given the authority to process claims late last month, and the occasion of the commission's first meeting here was to inspect at first hand the progress being made, Moore said.

Speed Up Claims

"Previously, claims had to be processed in Detroit after being filed locally," he explained. "This naturally resulted in a needless delay which has been corrected. Response to the new plan has been excellent, and I particularly wish to commend Upper Peninsula managers for their fine work."

The executive director referred to Arthur Kent, of Escanaba; Albert Gavzoda, of Marquette, managers respectively of the eastern and western halves of the Upper Peninsula, and to all office managers in the U. P. Offices are located at Calumet, Hancock, Ontonagon, Ironwood, Ishpeming, Iron River, Marquette, Munising, Escanaba, Menominee, Iron Mountain, Newberry, St. Ignace and Sault Ste. Marie.

Most of these offices were visited by the commissioners prior to their meeting here yesterday.

Current unemployment in the U. P. is 8,970, compared with a wartime peak of 2,500 and -40,000 in March, 1940. A total of 75,460 non-farm workers are employed in the U. P. at present, compared with 86,000 during the war and 71,800 during the census year of 1940.

Half Are Veterans

Of the 84,430 non-farm labor force available in the peninsula, half are veterans, it was pointed out.

Currently, 776 are unemployed in the Delta-Schoolcraft area, of whom 193 are women and 363 are veterans. Although total unemployment a year ago was approximately the same, the type of jobless applicants has changed considerably.

Women jobless have increased 100 per cent, and the number of male veterans unemployed repre-

sents a decrease of 31 per cent from a year ago.

"Major firms in the area are operating at peak employment and are hiring only for replacement purposes," it was explained. "Twelve major concerns in the area having a current employment total of 2,300 anticipate that within six months their total employment will fall off three per cent."

"Total employment figures at present are rather 'spotty' because of vacations, minor cutbacks and temporary layoffs by many concerns in the area, but the current turnover is small and does not constitute an operating problem for most employers."

Find More Jobs

Moore said efforts were being made to develop new employment in the U. P. Gavzoda, manager of the western U. P., said within the past year employment in new industries has been found for 150 persons in the Copper Country, where the per capita unemployment load is the greatest in the U. P.

Gavzoda said he has been contacting employers during the past year and has been working toward procuring new industries so that more persons in the Copper Country left unemployed because of inactive mines can find employment.

The commission meeting climaxed a week-long U. P. managers' school, Whitney Dixon, MUCC of field manager here, said. Commissioners spoke over WDBC, the Escanaba radio station, at 5:05 yesterday afternoon and held a dinner-meeting in the House of Ludington.

Those attending were Emerson J. Poag, Saginaw, commission chairman; Dr. Robert M. Ashley, Wyandotte, and Joseph D. Hadley, Detroit, commissioners; Moore, executive director; John Watt, Detroit, chief of information service, and the following: Max Horton, assistant to the executive director; James Sagel, director of field operations, and Justus McCluskey, chief of field operations, all of Detroit; John F. Cassin, Port Huron, member of the commission, did not make the U. P. trip.

Most of the group left today to attend the U. P. American Legion convention in Ishpeming.

Planes Hunt Victim Of Fishing Tragedy

Pontiac, Mich., July 16 (AP)—Several small planes circled Commerce Lake yesterday in a search for 24-year-old Samuel Mox after his boat was found empty by nearby fishermen who had heard his cries for help.

Later Sheriff's officers recovered the victim's body and an autopsy showed Mox died of a heart attack and must have fallen from his boat.

U. S. Army Enlists 18 Men From Area During Past Week

Eighteen men from the Escanaba area of the Wisconsin Recruiting district have enlisted in the U. S. Army at the Escanaba office during the past week.

Four men from the city have enlisted, it was announced by recruiting officials here. They are Abner F. Wescott, of Wells, for three years in the armored units; Earl R. Rens, of Wells, for three years with the armored units; Harold H. Robitaille, of 213 Stephenson avenue, for three years in the armored divisions, and Kevill J. Murphy, 328 South Seventh street, for three years in the air force. Murphy has reported to Lackland Air base in San Antonio, Tex., and the other three men to Fort Knox, Ky.

Also enlisting from the immediate area were Eugene D. Imoberg, of Ensign, for three years with the corps of engineers; David L. Johnson, of Bark River, for three years with the air force; and Donald J. Poisson, of Wilson, for three years with the air force. Johnson and Poisson have reported to San Antonio, Tex., and Imoberg to Fort Knox, Ky.

Other Upper Peninsula men joining the armed forces were: Joseph E. Barras, Francis L. Gillespie and Thomas H. Halley, for three years in the air force; and William E. Downs, for three years in the regular army unassigned; and Elemer L. Tobias for three years in the second armored division at Camp Hood, Tex., all of Sault Ste. Marie.

Norway men enlisting were Robert K. Evance, for six years with the regular army in Europe, and Albert I. Camoort for six years in Europe. Enlisting from Michigan were Eugene C. Murray for three years with the medical department, and Francis K. Lapin, for three years in the air force.

Bernard A. Poirier of Iron Mountain enlisted for three years with the mechanized cavalry, and John G. Dallafior of Amasa for three years in the air force.

Campbell Is Named Lions' Secretary

The appointment of a secretary-treasurer, Pros. Attorney F. Clyde Campbell for the new district cabinet of Lions for Upper Peninsula was announced today by District Governor of Lions B. J. Grobaski of L'Anse.

Attorney F. C. Campbell has been actively interested in Lionism since the club in L'Anse was chartered in 1943.

Many of the worthwhile projects accomplished by the Lions club of L'Anse were due largely to his untiring efforts in the interest of community betterment.

Together with the appointment of six zone chairmen and four deputy district governors which will be announced, after the International Convention July 26-29, the group will constitute the cabinet officers of the Lions 10th District of the Upper Peninsula.

Escanaba Selected By Rural Carriers For '49 Convention

Lansing, July 16 (AP)—Escanaba was selected as the site of the 1949 convention at the closing session of the 46th annual convention of the Michigan Rural Letter Carriers Association here Thursday.

All officers were re-elected. The slate: President, Otto R. Tara, Otter Lake; vice president, William P. Kellogg, Olivet; secretary, Georgiana K. Peet, Ithaca; treasurer, Floyd J. Allhouse, Chelsea.

The only contest was for the post of treasurer where Allhouse was opposed by Ivan Clark of Kalamazoo and Starr Mills of Dowagiac. The incumbent was reelected on the third ballot.

Girl Who Gave Up Eating Nine Years Is Pantry Raider

Nanking, July 16 (AP)—Yang Mei, 20, who swore she hadn't eaten for nine years, was exposed today by the official Central News Agency as a midnight pantry raider.

The agency said nurses, feigning sleep at the Chungking hospital where the girl has been under observation for weeks, caught her slipping into the pantry to feast.

Push-Button Plane Ends 2109 Mile Hop

Los Angeles, July 16 (AP)—The air force's push-button plane, a four-engine C-54 transport, has completed its third long-distance automatic flight.

The big aircraft landed here yesterday after a 2,109-mile hop from Wilmington, Ohio, during which its 10-man crew read, played chess and slept. The trip took slightly more than 12 hours.

The plane is the same one that flew the Atlantic both ways without a hand touching the controls.

TRIBE SEEKS PRINCESS

Harbor Springs, (AP)—An Indian girl from a northern Michigan county will be chosen princess and honored at the annual Ottawa Indian ceremonial here July 25. Fred Ettawageshik, Chief Pipi-Qwa of the Michigan Ottawa, said applicants for the honor must be at least one-fourth Indian and appear in the costume of their tribe.

McGrath Retained To Get Votes For Democratic Ticket

Philadelphia, July 16 (AP)—The election campaigns of President Truman and his running mate, Senator Alben W. Barkley, will be directed by Senator J. Howard McGrath.

McGrath was retained without opposition yesterday as chairman of the Democratic national committee at a post-convention session at which he predicted President Truman will win the November election because "his kind of courage, his kind of confidence, do not fail."

Representatives from Alabama attended the committee meeting, but those from Mississippi were missing as Northern Democratic leaders praised both the Truman-Barkley ticket and McGrath.

The following slate of national committee officials was named for the campaign:

McGrath of Rhode Island, national chairman; Mrs. Charles W. Tillet of North Carolina, vice-chairman; Mrs. Dorothy Vredenburg of Alabama, secretary; Joe L. Blythe of North Carolina, treasurer; Leslie Biffle of Washington, D. C., sergeant-at-arms, and Representative Clarence Cannon of Missouri, parliamentarian.

Salaries Increased \$20 to \$50 By Ford

Detroit, July 16 (AP)—The Ford Motor Co. today raised the wages of 25,500 salaried employees by from \$20 to \$50 a month, an average of about nine per cent.

At the same time the company rejected, for the present at least, any intervention by the Federal Mediation and Conciliation Service in its wage deadlock with the CIO United Auto Workers.

The 116,000 production employees represented by the union are seeking a wage increase and other benefits equivalent to about 21 cents an hour.

"The Ford Motor Co. stands ready to meet with union negotiators at any time," Henry Ford II, president of the firm, said in a statement. "We appreciate the offer of the United States conciliation service but we always have been able to solve our differences with the union and we prefer to follow this policy until every possibility is exhausted between the union and ourselves."

Swindler Who Spent \$10,000 In Detroit Gets 2-5 Year Term

Detroit, July 16 (AP)—Albert De Mille Drury, 23, who said he swindled \$10,000 and spent it on "high living," was sentenced today to two to five years in prison.

A probation report to Recorder's Judge Christopher E. Stein said Drury had "a pronounced desire to make a splurge without the ability to work."

The money was spent on "high living, mostly girl friends," the report added. One girl received a \$700 diamond ring, \$300 worth of clothes, a \$165 radio and \$60 worth of records.

Drury was accused of accepting large sums of money from persons to whom he promised new automobiles. The cars never were delivered. Among his victims were Frank Barbaro, owner of Detroit's largest night club, and a master of ceremonies there, Frankie Rapp.

The charge against Drury was larceny by conversion.

Son, 31, Is Accused Of Hiring Man To Kill His Mother

Bloomington, Pa., July 16 (AP)—Jack Chester Young, 31, was being held today on a charge that he tried to hire another man to kill his mother for \$5,000, state policeman Sidney Steinberger said.

Steinberger said he and several other police officers were in an adjoining room yesterday when Young made the offer to Sheldon Yost, 29. Both Young and Yost are residents of Stillwater, Pa.

The offer, Steinberger said, involved Young's mother, Mrs. Mary R. Young, 62, of Bendertown, Pa. Young was charged specifically with solicitation to commit murder, the state policeman said.

Young first approached Yost last Wednesday, Steinberger said, and Yost told him to return later. Yost informed police, Steinberger said, and they were posted in an adjoining room when Young met Yost the second time.

Six Months of 1948 Sets New Record in Traffic At Straits

Lansing, July 16 (AP)—A new record was set for vehicles crossing the Straits of Mackinac on state ferries during the first six months of this year, the highway department said today.

A total of 136,398 vehicles were carried between Mackinaw City and St. Ignace during the six-month period. The previous high was 127,856 vehicles during the first six months of 1947.

A new one-day record also was set this last Fourth of July when 5,438 vehicles were carried. The previous one-day high was 5,374 vehicles for July 3, 1947.

Election of officers for the organization consisting of 13 members was held and the following slate of officers was re-elected: Commander, Roger Campbell; Senior vice commander, Joseph I. Perrow; Adjutant, chaplain and junior vice commander, Herman S. Kallman of Cornell; Quartermaster, Percy Owen; and Sergeant-at-arms, Charles Behrend.

Keyes Enters Race To Oppose Sigler

Lansing, July 16 (AP)—Lieutenant Governor Eugene C. Keyes filed nominating petitions for the office of governor on the Republican ticket today.

Keyes said he had not decided whether he also would file for the office of lieutenant governor as he originally planned. He said he would make his decision next week.

Keyes asked the attorney general for an opinion as to whether he could file for both offices and withdraw from one of them within the three-day period of grace allowed after the deadline.

Keyes filed 22,548 signatures from 80 counties. He said he had 17,644 signatures for the office of lieutenant governor.

Shooting Climaxes Fist Fight of Two Paralyzed Veterans

Memphis, Tenn., July 16 (AP)—A paraplegic veteran was reported in fair condition today after a shooting that climaxed a fist fight from wheel chairs at Kennedy Veterans hospital.

The wounded man, Richard Hicks, 31, of Canolau, Mo., was shot through the left thigh by a similarly paralyzed patient, said Dr. Clyde Beck, hospital manager. Beck identified Hicks' assailant as Wallace Rice, 28, of Amarillo, Texas. He said Rice had held a small .25-caliber automatic against Hicks' head, but the safety catch was on and the gun wouldn't fire.

Beck said Rice wheeled his chair over to a friend, Dow Duckworth, 20, of Gainesville, Texas. After Duckworth showed him how to work the pistol, Beck said Rice fired a shot through the floor to make sure the gun was working and then shot Hicks.

Bride-to-Be Slain; Marriage Opposed By Doting Father

Indianapolis, July 16 (AP)—George Leonard, 47, who had opposed the approaching marriage of his daughter, Frances, 23, today was hunted by police for questioning in connection with her slaying.

Miss Leonard was fatally shot yesterday at the home of her aunt and uncle, Mr. and Mrs. Elmer Utterback, 10 miles south of here. State police-detective Jack Hestor said witnesses to the shooting included the girl's mother, Mrs. Bernice Leonard, 47, and her two younger sisters, Sandra Kay, 6, and Glenda, 9. He said Leonard was being sought by police.

Hestor said Mrs. Leonard related that Frances was her husband's favorite daughter and he had brooded since he learned a month ago she planned to marry Lloyd Keller, 34, a truck gardener of Bargersville.

Mrs. Leonard told Hestor that Frances left their home at Whites-town to live with the Utterbacks because Leonard refused to let her have dates. She said three other daughters had married against her husband's wishes.

Steelworkers Get Raise of 13 Cents

Pittsburgh, July 16 (AP)—The U. S. Steel Corp. and the CIO-United steelworkers today agreed to a pay increase averaging 13 cents hourly and the firm announced it has no alternative but to raise prices to meet resultant higher labor costs.

The raise ranged between 9½ and 25 cents, spread over more than a score of various job classifications with the average hike 13 cents hourly. It will affect about 170,000 production workers employed by U. S. Steel and its five subsidiaries. Steel workers now average about \$1.55 hourly.

Black Continues To Heckle Sigler

(Continued from Page One)

Warner has been acting on special assignment, inquiring into the activities of various boards, state agencies and commissions. He also is reviewing the various regulations of the state agencies and commissions and is assisting the legislature in that job.

Stopping Mr. Warner's work in relation to the executive office will mean abandonment of important matters of great significance to the people of the entire state," Sigler said.

Warner, an assistant to Sigler to the Ingham county graft grand jury days, has the status of an assistant attorney general and technically is under Black's control.

Black said Warner would be used "in furtherance of a special investigation now being conducted by this office. * * * I realize that this change of assignment may interfere to an extent with the expeditious flow of work of the executive office, but it is nevertheless necessary."

Black repeated his frequent complaint that his office is understaffed and lacked funds.

Black simultaneously sent Sigler and newsmen copies of his letter and left town before he could be queried about the "special investigation."

Sigler said "I want to sleep on this and talk with Warner and make a decision tomorrow or the next day. Meanwhile, Warner will stay here."

Budget Director John A. Perkins who was with Sigler when the news arrived, said other state departments had been having trouble obtaining legal advisers assigned to them, but that this was the first instance of legal assistance being withdrawn from a department.

Perkins said he could not answer Sigler's question as to why the executive office should be the first to be singled out "unless it is because the executive office has the best legal talent."

The budget director said he didn't know why the change was necessary since Black recently had been given \$95,000 from the "Little Legislature" and had \$12,000 in unspent salary funds in his own department. (Black has refused to use the \$35,000, claiming it was illegally provided.)

Sigler glumly said Black was trying to take Warner away under a new law passed by the legislature which Black requested and Sigler recommended for him. The governor referred to a 1948 law which puts all departmental attorneys under Black's control.

While America's population is steadily climbing, the number of dairy cows on farms producing milk is going down—from 27,770,000 head on January 1, 1945, to 25,165,000 on January 1, 1948.

Special 5-Mill Tax Is Proposed

Munising—A meeting of members of the Alger county board of supervisors with road commission members has been slated for Aug. 2. At that conference plans will be made for the submitting of a proposal to voters in the Sept. 14 primary election which would permit the levying of a special 5-mill tax for county road purposes only for a five year period. At their regular July meeting Tuesday the supervisors discussed the lifting of the ban on bear hunting in the county because of their being a nuisance.
